USGS QUAD MAP OBSIDIAN CLIFF (1986)

NGS PID N/A

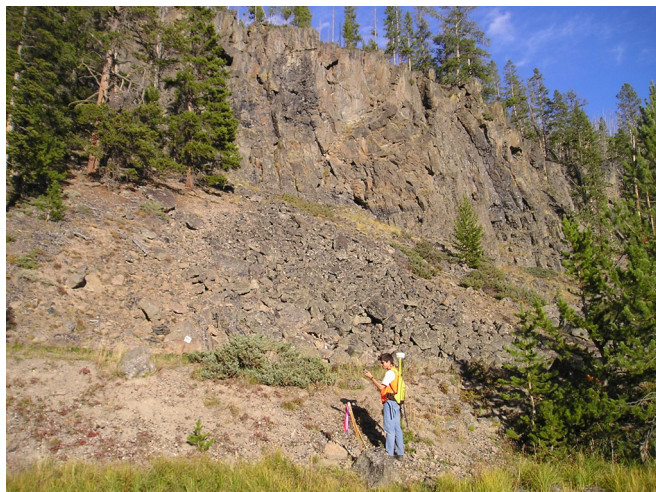

LATITUDE 44.82096

LONGITUDE -110.72802

ELEVATION 2267 m

DATE OF DESCRIPTION 2003

DESCRIPTION Station is 8.24 miles north of Norris Junction along the Mammoth Hot Springs-Norris Junction highway. The bench mark is a standard FHWA brass cap set in a concrete monument, about 25 feet west of the centerline of the highway at the toe of about 6 feet of highway fill at the base of Obsidian Cliff, just northwest of and across the highway from bench mark D9.

Looking east at bench mark (near flagged witness post) in bank of Norris-Mammoth highway, and Obsidian Cliff in the background.

Close up of bench mark.

Looking north along Mammoth-Norris highway at bench mark (near person).
